

KEXTREME COMFORT®

REDUCES LEG FATIGUE

You'll probably see a refreshing difference in your associates. The unique cushion ergonomics of the Kextreme Comfort anti-fatigue mat reduces fatigue and noise, keeping you on your toes longer and increasing worker productivity. This could make a very real difference to your bottom line.

PROVIDES SAFE NON-SKID SURFACE

Kextreme Comfort is made of a patented nitrile rubber construction which provides the extreme comfort in a unique water resistant construction. This mat is designed for the safety, comfort, and protection of all who tread the floors of your business. It is oil and solvent resistant and meets all ADA height guidelines. Perfect for use behind bars, assembly lines, and checkout counters.

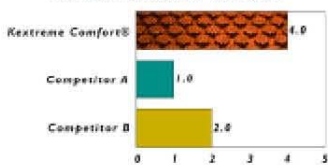

EASY MAINTENANCE

Kextreme Comfort is easy to clean with pressure hoses and is durable enough to be washed in industrial laundry systems without damage. It is multi-directional, multi-functional, and its non-skid surface provides a safe and ergonomic solution for all who use it.
